

GERMAN REVOLT ACHEIVED

10 THRONES GIVEN UP, 10 GOVERNMENTS NEW

LONDON, Nov. 12.—A complete revolution, throughout Germany has been practically achieved with little bloodshed. Workmen and soldiers committees control nearly every important city. Most recently controlled are Danzig, Dresden, Königsberg, Strassburg, and Karlsruhe. Ten thrones have been abandoned. The remaining 10 states are forming new governments.

The latest reported abdications are the Grand Duke of Mecklenburg and Saxe-Weimar. It is believed the Kaiser's 132 palaces, chateaus and shooting boxes in Germany will be confiscated. Herr Noske is appointed governor of Kiel.

MILITARY, CIVILIAN THROGS GATHER IN CONGRESS HALLS TO HEAR PRESIDENT'S ADDRESS

The president's address, given yesterday before a joint session of congress, follows:

"Gentlemen of the congress: In these anxious times of rapid and stupendous changes it will in some degree lighten myself of responsibility to perform in person the duty of communicating to you some of the late circumstances of the situation with which it is necessary to deal. The German authorities who have at the invitation of the supreme war council been in communication with Marshal Foch have accepted and signed the terms of armistice which he authorized and instructed to communicate to them. These terms are as follows:

"Military clauses on the western front:
"1.—Cessation of operations by land and in the air six hours after the signature of the armistice.
"2.—Immediate evacuation of invaded countries, Belgium, France, Alsace-Lorraine, Luxembourg, so ordered as to be completed within 14 days from the signature of the armistice. German troops who have not left the above mentioned territories within the period fixed will become prisoners of war. Occupation by the allies and United States forces jointly will keep

ALLIED WAR COUNCIL THAT DICTATED TERMS

OH BOY! THERE WAS SOMETHING STIRRING IN OUR TOWN; GOOD NATURED CROWD HAILS WAR END

Joe's unadorned, save with a flag and honest-to-God smiles, paraded the streets of Pendleton yesterday from 1 a. m. till 1 p. m. or thereabouts. There was no tableau but one grand moving picture of hilarity. Tom Lawson, who once described the Round-Up in picturesque style, would have a hard job trying to picture what happened here yesterday. The lid was off and the kettle of patriotism boiled over all day and never ran dry. It was fed by the magic of feelings long repressed.

Gladness and good nature were the predominant features throughout. There was noise all the time but save in a few sporadic instances no attempts at offense towards anyone. To this there is one general exception. William Hohenzollern a decided antipathy was shown. The Kaiser was humiliated, ridden on a rail, mobbed, buried and burned in so many different forms

and in so many places that the field artillery, with all its mathematical devices, experts and observation balloons could not have kept the range. If there is hell on earth the Kaiser was blistered yesterday.

Pendleton folk began celebrating as soon as news arrived early Monday morning and they were at it all day long. They were augmented by people from the country and surrounding towns until the business section represented one grand continuous parade of cars. Almost every car trailed a few big noise making pans, a bell, horn or something else to make a din.

Last evening the big feature of the celebration was a bonfire on the old Happy Canyon site. The fire was a good one and was witnessed by thousands. No formal program was held and the sole entertainment consisted in shooting some rockets, Roman candles and in the antics of some boys on top and along side of the Ferguson building.

WEST END PEOPLE MAKE WELKIN RING

HERMISTON, Nov. 12.—(Special.)—Hermiston, Echo and Stanfield had a joint celebration yesterday with the largest assemblage of automobiles in parade ever witnessed in this section. Echo and Stanfield people first came to Hermiston in cars and after celebrating there the entire crowd accompanied by Hermistonians returned to the other towns. There were 132 autos in the parade which also included a band and the Echo home guards. Cars were bedecked in flags and bunting and there was noise making everywhere.

Joe Hinkle, H. W. Cox, T. O. Yates and Asa B. Thomson were the principal speakers during the day.

A big bon fire marked the celebration at Hermiston last evening.

PRISONERS MAY REBUILD WHERE HUN DEVASTED

WASHINGTON, Nov. 12.—Officials studying the armistice terms conclude that German and Austrian prisoners will probably be used in rebuilding devastated Belgium and France. High authorities confirmed the belief that the prisoners must work. They maintain such action is justifiable because of damage done by the central powers and the fact that Germany deported thousands of Belgians and French for work during the war.

SELF ASKS LENIENCY

WASHINGTON, Nov. 12.—Self's note asking the president to soften the armistice conditions preventing starvation and rebellion was picked up by a navy wireless and the text delivered to the president last night. It is announced today.

EARLY PEACE CONFERENCE NOT LIKELY

WILSON MAY LEAD DEMOCRATIZATION

Ameroca's Political Offensive Comparable to Military Campaign.

BY FRED FERGUSON.
(United Press Staff Correspondent.)
PARIS, Nov. 12.—An early peace conference is not expected. The allies must first stabilize and consolidate the baby democracy rising from wrecked feudalism. Allied conferences privately laud President Wilson's political offensive as comparable to Foch's military successes. The impression is widespread that Wilson will play the most important role in democratizing Europe.

MAY SET UP MANY SMALLER COUNTRIES

WASHINGTON, Nov. 12.—Development in Germany during the next two or three months will largely determine peace terms. Wilson and allied statesmen agree the Kaiser could not be granted the same terms as will be given the German people. Ruling themselves. Whether there will be a German nation to deal with at the peace table is uncertain now. The empire is eclipsed by local revolutions throughout. Each principality and province is having its own troubles. Allied diplomats would favor a group of small democracies in Europe's heart as none would be large enough to menace the world again.

QUESTIONNAIRE WORK UNCHECKED BY PEACE

Just because the armistice has been signed and hostilities in the war are suspended is no reason why you should not fill out your questionnaire if you have not already done so. The local board is sending out questionnaires according to program, and at the council chamber in the city hall today the legal advisory board is in session assisting registrants filling out their questionnaires. The work is being continued and will be until orders to the contrary are received from Washington.

ECONOMIC CONDITIONS FIRM.

WASHINGTON, Nov. 12.—Chairman Baruch of the war industries board declared, "America hurried this war's end with a firm and steady grip on all economic conditions. All possibility of industrial disturbances or money panics were forestalled by government control of raw material, labor, fuel, food, industry and trade." The war trade board will continue to maintain hold on export trade through issuing license and will allow relaxation only as safe conditions permit.

PARIS, Nov. 12.—French general headquarters will be transferred to Metz within 10 days, it is generally believed. Versailles is favored for the peace conference. Discussions with German delegates continued from 1 o'clock until 5 Monday morning. The Germans asked only minor concessions but the armistice was signed as first dictated by Foch. General Winterfeldt wept bitterly at signing his signature.

The Petit Parisien says it understands the allied premiers will soon meet in Versailles to consider peace problems.

SAVE FOOD SAYS HOOVER

WASHINGTON, Nov. 12.—Hoover has warned that Americans must conserve food along new lines because of famine and anarchy in Europe. "Famine is anarchy's mother." If we value our own safety and the world's social organization, if we value the preservation of civilization itself we cannot see this cancer growing upon the world's vitals. Hoover was addressing the state food administration on the event of its departure to Europe to take charge of food distribution there.

Sheridan Has One Death.

SHERIDAN, Ore., Nov. 11.—As a result of the influenza epidemic in this city, Mrs. Lady died Thursday evening following an illness of about one week. Mr. Lady is the first victim since the outbreak of the epidemic here. It seems to be abating at present time as no new cases have been reported in two days. All public places are expected to open Monday.

ENTHUSIASM, GENEROSITY GREET WAR DRIVE; ADAMS SAILS OVER THE TOP FIRST

A day's pay for the boys.
This is the slogan among what is termed class 1 men in the ratings of the Patriotic Service League for the United War Works drive which opened yesterday, and the enthusiasm with which it is being received indicates it is carrying the day. Class one men are asked to give from \$1 to \$5 and committees working yesterday report in all most every instance these are giving either \$5 or a day's pay of their wages.

Yesterday was the opening day of the campaign to raise the fund, but owing to the celebration and the fact that the most of the committees joined in the hilarity, little work was done. However, two committees made partial report. Precinct 28, Louis Goss, chairman, at Riverside, secured \$475, and precinct 12, John Dyer,

The German courier arrived at the French lines from the Spa Sunday night, carrying instructions from General Foch. The German delegates made no contest over the points they knew useless to discuss. The delegates were reinforced by four specialists to press the necessity of leading Germany. The y described food conditions as critical. The reduction of the neutral zone east of the Rhine was granted. The delegates recognized the four financial paragraphs as those put down by Bismarck in 1874. They asked special facilities to transport the army behind the Rhine. The German delegation took a special train from Rethondes to Tergnier where a German automobile carried them back to the German lines.

WAR STRICKEN PARIS BURSTS INTO GAIETY

PARIS, Nov. 12.—When victory news arrived Paris came to life with a bang after four years of church-yard quiet. Streets were paraded shouting, singing and flagwaving. The city broke into as gay as ever, blossoming into merriment. The roof of the Bourse was almost lifted when breakers boomed the Allied victories. Streets are packed. A splendid crowd went to the war offices shouting "Vive Clemenceau." The premier appeared at a window and later descended to the street accompanied by his daughter and officers. The demonstration deepened as everybody, Miss Clemenceau, openly weeping. The premier suddenly imposed silence and then led a cheer "Vive La France."

chairman, reported in 1299. At headquarters Secretary Chasman issued receipts for \$235.40. All these are from parties who found time to break away from their celebration long enough to show their desire to give something substantial in their gratitude for what the boys have done toward bringing about the close of the war.

To Adams belongs the honor of being the first district of the county to go over the top. Adams' quota is \$1,200 and yesterday morning the committee went out for the money. By evening \$1,500 was reported with \$1,325 of that amount paid in cash.

All other places in the county spent the day in celebrating, but today soldiers are out in force, and the people do their part. It will be possible to report Umatilla county over by evening.
